# Acceptance criteria

Acceptation criteria specify requirements, outputs and quality of Safetica deployment for a customer. The document describes primarily functional requirements and the impact of the software on the customer's production environment. Acceptation criteria include installation of Safetica client(s) and server(s) at least in their minimal configuration, within their minimal system requirements. Acceptation criteria are signed by both Supplier and Customer.

## Supplier's acceptance criteria

Acceptance indicator	Reviewed by Supplier	Reviewed by Customer
Safetica Management Service (SMS) is installed on a computer with at least minimal hardware configuration, and a compatible operating system	Choose...	Choose...
Safetica Endpoint Client (SEC)*** is installed on computer(s) with at least minimal hardware configuration, and a compatible operating system	Choose...	Choose...
Database is configured for remote connection of all SEC's and SMS's	Choose...	Choose...
A computer with SEC is a typical station in production environment	Choose...	Choose...
The computer with SEC was tested with all applications that are used in customer's standard business processes.	Choose...	Choose...
The computer with SEC is not slowed down* and its network connection speed is not affected**	Choose...	Choose...
The computer with SEC does not suffer from application crashes that are not solvable using excludes in Safetica Management Console (SMC).	Choose...	Choose...
Functionality defined by the Customer's acceptance criteria was demonstrated to a customer's representative	Choose...	Choose...

*Note: Quantifiable measures listed in Acceptance indicators may be increased by 15% in case Safetica processes cannot be excluded from active Antivirus scanning and protection.*

*\* Due to the nature of Safetica solution, it is possible that work in high-performance applications, high-volume network traffic, high number of file operations, or similar actions may be slowed by up to 20%.*

*\*\* Network communication may be slowed by up to 10%.*
